NEW LOGO.
NICE.
IS THAT ALL
THEY'RE
GONNA DO?

I'm watching them like a hawk.

Cell C say they're changing – everything from their call centre to the way we get billed every month. They're also supposedly building the first 4G^S network in the Southern Hemisphere. As CEO, I'm here to make sure they do what they've promised. So talk to me. I'm on their case.
